

## JUNE 2019 NEWSLETTER

We hope that everyone had a Happy Father's Day and was able to celebrate with family. Part of the day was spent traveling for some of our members after leaving the June campout in Mt. View, AR.

Happy Anniversary to Ed and Cecilia who will be celebrating on the 10<sup>th</sup> of this month.

Bill, Sally, and Klancy met at the West Memphis rest area on Wednesday at noon to head out together. It was a long and winding trip with the route taken but made it there about 3:30. Jackie came in around 7 after getting off work. It was time for Rumikub that evening along with cake.

Klancy and Jackie spent the day on Thursday at the Ozark Folk Center and Ed and Cecelia came into the campground around 1:00 followed closely by Bob and Alesia. We couldn't have planned better weather for the trip. It was very unusual for June to be able to have the windows open and not have to run the AC. We enjoyed the cool weather and had time to sit and visit. Jackie was spending her time napping after the walking at the Ozark Folk Center.

The evening brought the “social time” with cake and ice cream at Bill and Sally’s rig. It was a great time to catch up on everything and enjoy the good food.

Friday morning was easy-going for everyone with most going their own way and running into others in town during the day. The traditional Friday night meal out was at Jo Jo’s Catfish restaurant north of town. Afterwards everyone headed to get their chairs and go downtown to the park to listen to music. The rest of the evening was spent playing dominoes in a building at the RV park.

Jackie and Klancy had to leave after the meeting on Saturday morning to attend a reception back home. Others visited the Folk Center and other places in town. Everyone went back to the square in the evening by the Courthouse to listen to music again and have ice cream. The weather could not have cooperated with us any better other than a 10-minute heavy shower on Wednesday afternoon and “sprinkles” while at the Friday evening music in the park.
